

ADAPT TO P, 2 A.B.C.
3 DIFFERENT ELECTRIC
WIRE FOR POWER

This is the smallest, lightest compressor we carry and one of the most efficient you'll find for its size. This stripped-down mini fits in the palm of your hand and will inflate any motorcycle tire in a couple minutes. When a larger compressor is too much bulk to carry along, and CO2 cartridges aren't nearly enough for your trip, this dedicated pump will deliver continuous pressure without fail. What it lacks in beauty, it makes up for in performance – which is what you really need when you're flat stranded in the middle of nowhere.

Has a nice long 26" inflator hose, 6' power cord, and packs small in included storage sack. Comes with three adaptors: SAE, cigarette lighter and alligator clips. Lock-down delivery valve fits all bikes. Also comes with carabiner clip, so you can attach the compressor to whatever you want out of the way and off the ground.
