

V-Twin MFG.  
LBV Rear Chain Tensioner  
FITS 1984-1985 FXST  
VT Part No.19-0433

This is a custom application and should only be installed by a knowledgeable and trained motorcycle technician.

V-Twin Mfg. accepts no responsibility for improper installation.

Installation Instructions

1. In order to install the LBV Rear Chain Tensioner you must access the rear left side, in the area of the sprocket and chain cover.
2. Remove the locknuts from the chain cover mounting bolts. Location as shown in sketch below. It is not necessary to remove the bolts.
3. Install the chain tensioner mounting bracket on the inward protruding chain cover mounting bolts. Reinstall the lock nuts and tighten.

NOTE: Before installing the tensioner mounting, rotate the roller assembly so that it will bear under the lower chain throw as shown. Hold in this position until the tensioner mounting bracket is engaged to the chain cover mounting bolts.

4. Your LBV Rear Chain Tensioner will increase your riding pleasure by:
  - Reducing chain vibration and noise
  - Eliminating chain slap on acceleration
  - Reducing frequency of required chain adjustment
  - Prolonging chain and sprocket life
  - Knowing the product is made in the USA
