

VT No. 31-4019 "T" Kit for FXST-FLST Solo Seat Mount Kit

includes heavy duty "T", 5" chrome springs, and hardware for mounting on 1984-up models. Will accept our seats 47-0511, 47-0512, 47-8655, 47-0110 and our Buddy and Heritage models. Strut bars are included to mount seat rigidly but still retain the springs from early look. Seat can be spring mounted, but realize the seat and mount will not be as stable as a rigid mount, and adequate clearance must be allowed between the seat and rear fender. "T" and brackets are finished in black. Buddy seats will require purchase of front nose bracket VT No. 31-0177, to bolt to front of "T". Also holes in rear of seat "T" are countersunk to allow Buddy Seat rear brackets. Use "K" countersunk washers inside of spring to center spring bolt.
