Canceller

Self Canceling Turn Signal Kit. Time and distance monitored by allowing automatic canceling of turn signals on 1980-90 XL. The unit monitors time only. Fits 1975-90 XL. Replaces 91860-88B. **VT No. 32-9029**

Automatic Turn Signal Shut Off Module works on all Twins without the OEM self canceller. Features 9 second timed flashing that automatically cancels, can be manually canceled at any time, built in solid state flasher, emergency flasher mode, works with LED lamps and includes wire diagrams and connectors. **VT No. 33-2071**

Illuminator Pro Module. This module control features automatic cancelling of signals. Front running lights and turn signals on single filament halogen on incandescent bulbs and LED's. Rear running lights, brake light function and turn signals on single filament halogen or incandescent bulbs as well as LED's. Built in load equalizer runs LED's up to 50 watts per lamp and emergency flasher mode that does not build up heat. Use on all Twins without self canceller.

VT No 33-2207

Traffic Light Sensor will trigger stoplight from motorcycle when on traffic light pad.

VT No. 32-1352

Turn Signal Equalizer

Intensifier Hi-Low Modules convert single function LEDs, Halogen or Incandescent bulbs to high and low dual functions (run & stop, run & turn or high and low). Works for taillamps, signals, marker lamps, rear fender tip, neon accent lighting or driving lights.

VT No. Application

33-2215 Single Input/Single Output will run single or multiple driving lights for high & low, single or multiple marker lights for run & stop. Also can do run & turn on a pair of turn signals but 2 units are required. Will run up to 50 watts total for driving lights.

33-2216 Dual Inputs/Dual Outputs does run & stop or high & low. Does run & turn for a pair of turn signals with one module. Runs up to 100 watts total for driving lights.

Turn Signal Load Equalizer II returns amperage draw to correct factory specifications when aftermarket marker lamps are used to replace stock turn signals in bikes with self-canceling systems (1991-99). **Note:** For all 2000-up models and 1991-99 models using LED signals use load equalizer III only.
