

**V-Twin Mfg.**  
**Even Pull Transmission Adjuster Kit**  
**Fits 1965 Later Big Twin Models with 4 Speed Transmission**  
**VT No. 17-6655**

**This is a custom application and rider safety depends on proper installation. This product should only be installed by a knowledgeable and trained motorcycle technician. V-Twin Mfg. accepts no responsibility for improper installation.**

**Installation Instructions:**

1. Bolt the top strap to the transmission plate and bolt to the frame.
2. The bottom adjusting strap bolts up to front transmission studs.
3. To adjust transmission loosen transmission stud nuts and adjustment nuts.
4. Adjust nuts forward or back until you have obtained the proper belt or chain adjustment and alignment.
5. Tighten adjustment nuts and transmission stud nuts.

**Note:** For late models with stamped steel transmission plate use the stock flat washer and lockwasher as spacer between transmission plate and bottom adjusting strap.
