HOUR METER WIRING DIAGRAM

1. Range: 0-99999.9 hours

Supply Voltage: DC 6-50V

Case diameter: 52mm

Operating temperature range -30°C TO +65°C

- The product is advised to be installed by a person specialising in the installation of such devices. If you wish to carry out the installation yourself, please read the following instructions carefully, or contact your supplier for assistance.
- Before installation, please make sure that the boat is stationary; the engine is switched off and cool.
- 4. Choose the best mounting position for your particular boat. Do not mount the gauge in a position that will impair visibility or interfere with driving. Before drilling into the mounting surface, look for any hidden wiring or other components that could be damaged by the drill bit as it passes through. See **Figure 1**. for reference.
- 5. After mounting the gauge, please see the enclosed installation diagram.

Caution: Incorrect connections can lead to short circuits. The cable (OR terminal) must only be connected in accordance with the electrical terminal connection diagram. See **Figure 2.** for reference.
