

V-Twin Mfg.
7 Color LED 4 POD Light Pod Set w/Wires and Switches
VT No. 33-0908 & 33-1908

This is a custom application and rider safety depends on proper installation. This product should only be installed by a knowledgeable and trained motorcycle technician. V-Twin Mfg. accepts no responsibility for improper installation.

Instructions:

7 color LED light pods are designed and intended for display use only. Some local regulations prohibit the use of indirect lighting while the vehicle is operated on public streets and highways. Do not install light pods with the light source facing directly away from the vehicle. Installation should be done in a way that allows the light to be seen indirectly by reflecting from the chrome or painted surfaces of the vehicle.

Light pods should not be located closer than 2.5 inches (63.5mm) from exhaust pipes or mufflers and must have 1.5 inches (38.1 mm) clearance from engine cylinders and heads.

Installation of light pods and switch dimmer controller to surfaces above 500° F is not recommend.

LED light pod can not be connected more than 20 pieces. It's possible to overload your motorcycle's charging system by adding too many electrical accessories. If your combined electrical accessories operating at anyone time consume more electrical Current than your vehicle's charging system can produce. the electrical consumption can discharge the battery and cause vehicle electrical system damage.

When installing any electrical accessory be certain not to exceed the maximum amperage rating of the fuse or circuit breaker protecting the affected circuit being modified. Exceeding the maximum amperage can lead to electrical failures, which could result in death or serious injury.

Item description (Qty) - 4 lights
Bill of material

- | | |
|----------------------------------|---------------------------|
| 1 Switch / dimmer controller (1) | 7. 12" extension (3) |
| 2 extension controller (1) | 8. Light Pod (4) |
| 3 Wire ties (10) | 9. Wire retainers (8) |
| 4 Splice extension (2) | 10. Y extension (1) |
| 5 2" extension (3) | 11. Isopropyl Swabs (2) |
| 6 9" extension (3) | 12. Dielectric grease (2) |

Installation Method (skulls must be in same direction)

Item description (Qty) - 6 light
