

**V-Twin Mfg.**  
**GAS TANK FILLER RING, BAYONET, STAINLESS**  
**FITS 1936-1983 Models**  
**VT No. 38-7029**

**This is a custom application and rider safety depends on proper installation. This product should only be installed by a knowledgeable and trained motorcycle technician. V-Twin Mfg. accepts no responsibility for improper installation.**

**Gas Tank Filler Ring Installation Instructions:**

1. Remove the gas cap.
2. Apply soapy water solution around the tank filler neck and the rubber gasket on the Dress Ringer. This will allow the vapor seal to slip down and properly seat on the tank during installation.
3. Slide the Dress Ringer down over fuel neck of the tank. The rubber gasket will fold upward and conform tightly to the fuel neck. Use a flat blade screwdriver or a similar instrument to press gasket flush to tank and around the entire circumference of the fuel neck.
4. Since the fuel neck heights vary from tank to tank, it may be necessary to trim rubber gasket if it sticks up above gas cap seating area.
5. Re-install the gas cap.
